## ARCHITECTURAL PRODUCTS, PROFILES & COLOURS

---

Architectural structures are here for the long term. They do more than serve as a covered enclosure.

They can be consequential in ways that transcend the structures themselves. Creative, expert designs can influence designers and architects by igniting ideas and innovations that will stimulate others to express their creative potential.

As importantly, those who use these buildings, be they homes, schools, hospitals, libraries, hotels or office towers, are left with a lasting impression.

Our Architectural stone, with its broad selection of profiles, colours and sizes provides everything you need to create an enduring impact for years to come.

# A PROFILE TO SUIT ANY STYLE

Variety is the spice of life! We have that covered with three distinct profiles to satisfy virtually any design taste or vision.

## TAPESTRY

Tapestry offers the sophistication and contemporary appeal of both a flat, smooth surface and precisely bevelled edges.

## TEX-STONE

The broad appeal of Tex-Stone, with its subtle textured surface, strikes a perfect balance between Tapestry and Rock-Stone.

## ROCK-STONE

The rugged profile of Rock-Stone reflects the traditional strength and appeal of stone that has endured for centuries.
